(d) Electrification being a concurrent subject, State Government has to ensure availability of sufficient and uninterrupted supply to the villagers.

Section-43 of Electricity Act, 2003 provides that every Distribution Licensee shall on an application by the owner or occupier of premises, give supply of electricity to such premises, within one month after receipt of the application requiring such supply.

RGGVY has stipulated that "States must make adequate arrangements for supply of electricity and there should be no discrimination in the hours of supply between rural and urban households".
